Situation on Fibrous and Cellulose [Skinless] Casings

Dear Customers

Basically, two materials are needed to produce fibrous and cellulose casings, paper (pulp, cellulose) and lots of energy. Both have increased drastically over the past weeks and months, for obvious reasons.

Since 2015, friedrich ingredients is the authorized distributor for VISKO-TEEPAK in the Middle East countries.

VISKO-TEEPAK has announced to increase prices for all casings with immediate effect to cover at least parts of the increased cost.

Please inquire with us when you need a new shipment, or just want to compare prices with your current supplier. Send us your inquiry to info@ingredients.de. Our quotation will be issued within 48 hours.

Sincerely,

friedrich ingredients gmbh

FLAVOUR & FUNCTION FOR YOUR SUCCESS™

Zvonko Cerkezovic, MD

PS. Please check our re-launched library of recipes, which now include CostControl™ and Brine Calculator here: <https://firecipes.com>.
